Neschen Joins Epson Stylus Pro GS6000 Suggested Media Selections

May 4, 2010, Elkridge, Maryland - Neschen® is proud to have been selected by Epson as a preferred media provider for the Epson Stylus® Pro GS6000 fulfillment kit. Neschen media, featuring Pure Color Media, complements the Epson GS6000, providing both brilliant image quality and color reproduction. Epson is industry-renowned for superior image quality, and the solvent-ink based Epson Stylus Pro GS6000 is no exception.

Neschen Pure Color Media VersaFabric is one of the select media products found in the Epson fulfillment kit that ships, by customer request, to Epson Stylus Pro GS6000 printer owners and prospective buyers. A favorite among Neschen customers, this 7.1 oz/yd², 100% polyester fabric with a specialty coating, is one of the most versatile fabrics on the market today. It is an excellent choice for both indoor and outdoor applications where color, wrinkle resistance and drape are important. VersaFabric provides sharp image reproduction and brilliant color finish for dramatic trade show roll-up, pop-up and soft image displays, store signage, murals, POP displays, tent sides and theatrical backdrops. Plus, its NFPA 701 fire rating allows it to be used in public areas.

“Epson strives to provide its customers with a full range of high quality and versatile printing and paper options,” said Reed Hecht, product manager, Professional Imaging, Epson America. “Neschen Pure Color Media complements the Epson Stylus Pro GS6000, allowing professionals to expand textile printing options with a media solution that accommodates the printers stunning color reproduction capabilities.”

In addition, ColorBurst® has created ICC profiles for several Neschen Pure Color Media products that are compatible with the full-featured, production-based RIPs included with every Epson Stylus Pro GS6000. Featured Pure Color Media profiles, including VersaFabric™, Mambo, Golden Gate and Calypso Breeze, as well as for Neschen SolvoPrint Paper 240 Satin - a 9 mil solvent photopaper, can also be downloaded from the www.neschenbrands.com website.

“The Epson Stylus Pro GS6000 fulfillment kit is a fantastic marketing tool, and we are excited the Neschen Pure Color products have been included,” says Angela Mohni, VP Marketing, Neschen Americas. “Both Epson printers and Neschen Pure Color Media textiles are known for their exceptional color performance – it is a synergy that will really work for even the most demanding customers.”

Neschen Americas manufactures and markets SEAL® and NESCHEN® brand products including; film and liquid laminating equipment and materials, wide and grand format textile and PVC printing media, self-adhesive vinyl, mounting adhesives and tapes, display systems, and archiving supplies. We serve the graphic, photographic, framing and library/archive markets throughout the Americas.
